About Heritage Mississauga

Heritage Mississauga is responsible for researching, recording and celebrating Mississauga's heritage. Through this mandate we develop ways to commemorate our community story.

We need to learn what the milestones and stories of our cultural communities are to help them celebrate, commemorate and leave a lasting legacy to their contributions to Mississauga.

About The Project

Heritage Mississauga will research the stories and milestones of the cultural communities of Mississauga and determine ways to commemorate them.

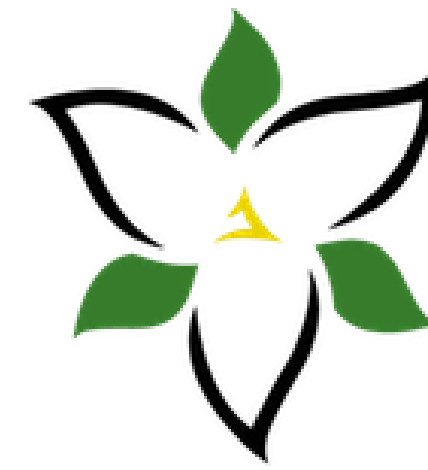

We will meet and survey, youth, seniors, community and immigration service organizations to discover and record their community stories and milestones and the impact they have had on the city over time. We will brainstorm ways to acknowledge their contributions and ideas for commemoration.

Each meeting will be recorded and data collected will be assembled into a final report that will present a communities “wish list” for commemoration markers.

Heritage Mississauga will then create a “next steps” report to identify ways that we can facilitate these commemorations and markers to be developed and created.

Communities In Focus

For this pilot project we will meet with the top 5 communities of Mississauga listed in the 2016 census; India, Pakistan, Philippines, China, Hong Kong and Poland.

Benefits of the Project

Pilot communities will have the opportunity to celebrate their contributions to the development of Mississauga by sharing their stories and ideas for commemoration.

Secondly, the city of Mississauga will benefit from the opportunity to learn about the cultural milestones that have supported the city's growth and development.

How You Can Help

- 1) Help us determine the best approach to organizing community meetings.
- 2) Introduce us to individuals from the communities in focus, so we may interview them and collect their stories.
